Avialogs: Aviation Library - A310

Airbus' A310 is the most profitable jetliner in its class, with lower operating costs and better economy than any other airliner in the 200-seat category. Since its service entry in 1983, the aircraft has provided maximum flexibility for operators - flying short-, medium- and extended-range routes with a high-degree of reliability.

A310 - Previous Generation Aircraft - Airbus

The Airbus A310 is a wide-body airliner developed and manufactured by Airbus, then a consortium of European aerospace manufacturers. Airbus had demand for an aircraft smaller than the A300, the first Twinjet wide-body. On 7 July 1978, the A310 (initially the A300B10) was launched with orders from Swissair and Lufthansa. On 3 April 1982, the first prototype conducted its maiden flight and it ...
