Convolutional Neural Networks for Visual Recognition

is a fun warmup exercise involving number theory, algorithms, and optimization. It gives you a guided transition into C++, as well as the CS106B testing and debugging tools. You can start on this task right away — and we recommend doing so! Completing this warmup in the first few days reserves the better part of the week for the bigger second ...

CS106B Getting Your C++ Legs - web.stanford.edu

2.) Really try to become "computer literate". This is orthogonal to whether you are good at software development and/or computer science or not. I mean that you should want to be able to solve small problems quickly with the help of a computer. Make no mistake: I work with experienced, well-educated developers that aren't (at least in my book).

Ask HN: I'm New to Computer Science and Engineering. Any ...

The average fees for Bachelor of Architecture courses range from INR 2,00,000 – 4,00,000. Employment in Architecture is projected to grow at 3% over the next 10 years globally The starting salary for B Arch Jobs starts from INR 350000 to 400000 which is higher than most other streams.
