

OCULUS health

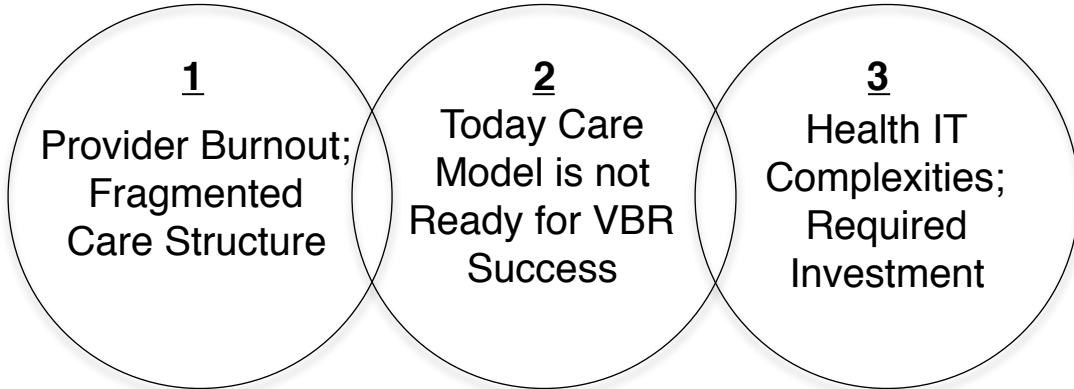

The Connected Clinic

Health System

The Systematic Solution that transforms
Health Systems to Value Based Care Models
without the disruption and white noise

Making Healthcare Work
For Today's
Health Systems

The Greatest Challenge is A Total Lack of Actionable Clarity
Who Can Do What For You and How?

With The Connected Clinic on your side, these challenges become clear.

Put Oculus' Proven Solution to work for you, your patients and Providers.

Maximize FFS
Revenue, and
Value Based World

The All-In-One
Platform, Where
Action = Results

Eliminate Care Gaps;
Close Preventive
Utilization Gap

Health System Administrator's
Daily Whirlwind

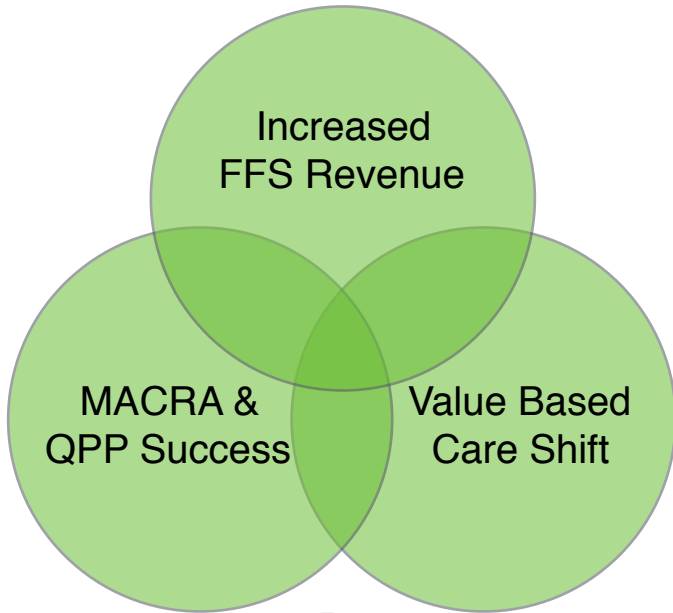

The Greatest Challenge is that there is NO Clear Success Model

Oculus Health's Systematic Solution
That Fits Into Your Existing Infrastructure

**Preventive
Subscription**

Identification of Real-Time Care Gaps and Preventive Service Opportunities.

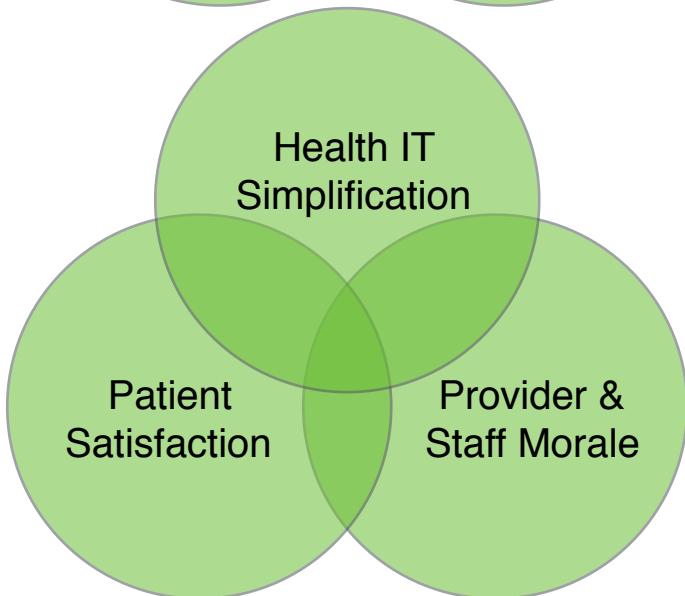

Oculus' Connected Clinic Solution enables service completion as a standard part of patient care.

**Care
Management**

Additional staff and technology infrastructure extends the reach of providers to the patient home.

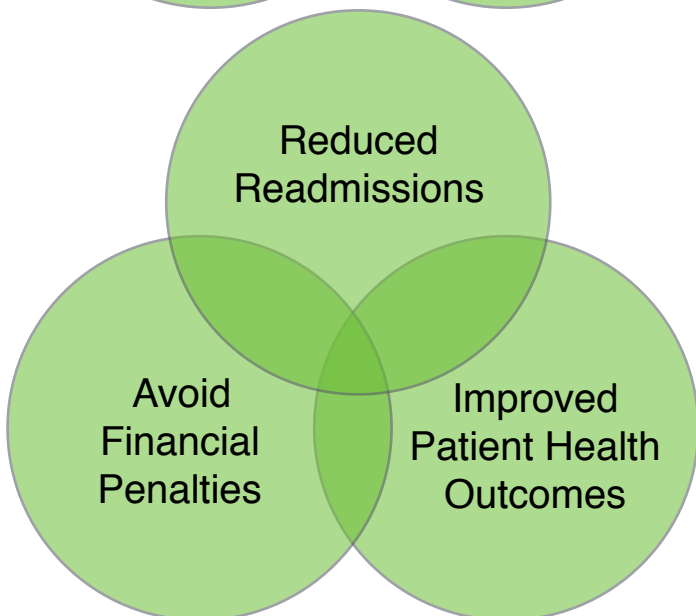

End result is early risk detection and triage, reduced daily patient volume, and substantial new revenue stream.

**PAC Optimization +
Remote Monitoring**

Perioperative and Transitional Care Optimization reduces readmissions while optimizing patient outcomes.

End result is significant cost savings, improved patient and provider satisfaction and throughput.

Oculus' Preventive Subscription & Care Management Solution

1.

Pre-Diagnosis:
Patients are incentivized to follow Preventive Care Schedule

Preventive Services are the New Norm

2. Disease Presentation:
Remote Monitoring and Engagement to reverse disease progression

Proactive & Personal Care Oversight improve patient satisfaction and health outcomes

Leverage clinician time

Oculus Care Managers remotely engage patients, ensuring care plan compliance

Disease Care Plans are Cure Focused

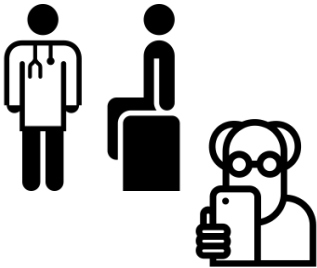

3. Ongoing Management:
Once diagnosed, care management begins

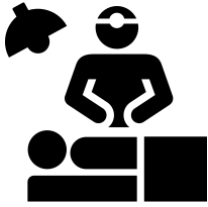

Appointments become "As Needed" and contextual, freeing providers to focus on providing quality care and fewer daily appointments

Oculus Payer Solution in Action
post-acute care optimization

Avoid
Readmissions
